

V INTERNATIONAL SPRING SYMPOSIUM

Professional Development in Language Contexts: Perceptions and Practices

March 15 – 16, 2019

Bălți, Moldova

The yearly spring symposium organized by the English and German Philology Department from Alecu Russo Bălți State University, in collaboration with the Association of Teachers of Foreign Languages and English Resource Center from Bălți, is a two-day event

that aims to bring together professionals from Moldova and abroad to discuss new concepts, trends and developments in Language Education (hereafter, LE).

The Symposium program will be structured in 3 plenary sessions, 5 concurrent sessions, and 12 workshops. The oral and visual presentations will address the current issues in LE, whereas the workshops will raise the participants' awareness of new techniques in LE by engaging them in various interactive activities.

We are thankful to the US Embassy Public Affairs Section for the generous support in organizing the Symposium.

We would also like to thank the administration of Alecu Russo Bălți State University (hereafter, USARB) for their continuous engagement to sustain our efforts in organizing the Symposium.

We strongly believe that such an event offers a platform for educators to share best practices in LE and develop their professional skills. We are convinced that the fruitful interaction of the participants during the symposium will further their professional communication.

V International Spring Symposium Professional Development in Language Contexts: Perceptions and Practices PROGRAM

March 15

| | THANK YOU FOR BEING WITH US |

We shall not cease from exploration And the end of all our exploring Will be to arrive where we started And know the place for the first time. Little Gidding V by T.S. Eliot

Spring Symposium

Balli 2019

English teachers who speak the language as an additional rather than as a native language are [...] the majority worldwide. The English spoken by such teachers [...] is also likely to be a better model of international English for their students. In addition, they have been through the same learning process as their students. They have insights into the kinds of problems that are likely to come up and how to deal with them. And they can function as role models: 'If I can do it, so can you!'

Penny Ur

A Course in English Language Teaching Cambridge University Press, 2012
